

PRIME NEWS

PRIME NEW YORK. THE CONSULTANT OTHER POLITICAL CONSULTANTS TURN TO.

NEW DATA FROM PRIME NEW YORK TO HELP YOU WIN!

Prime New York, the State's largest voter file vendor has added information gathered through modeling, commercial reports & census data to help you get in touch with your voters!

ETHNIC SELECTIONS

Using our extensive ethnic dictionary of first & last names, we select voters who are likely to be members of over 75 ethnic groups, ranging from Afghans to Vietnamese. And by using census data & past election results we can select likely African-Americans, Orthodox Jews, and immigrants from the former USSR.

ISSUES

- Pro-Choice & Pro-Life voters
- Supporters & opponents of Same Sex Marriage
- Supporters of environmental causes and gun owners
- Military veterans
- Supporters of religious institutions
- Contributors to political campaigns, animal welfare, the arts & charities

LIFESTYLES

You can purchase files of voters based on the median-income of their area, what type of home they have, including whether they are likely to be an owner or renter, the highest level of education reached, occupations and the composition of their household, including the likely presence of children & whether they own pets.

We can also select voters with a history of buying books, subscribing to magazines, collecting art, gambling in casinos, watching or participating in sports or investing.

And we can select likely LGBT voters.

Plus we continue to select voters based on

- Voter history
- Gender
- Geography
- Old and new districts
- Registration date (so you can contact your new voters)
- Age or date of birth (if you want to send birthday greetings).

ABOUT PRIME NEW YORK

We can select voters for targeting based on voter history, age, gender, ethnicity, or any other selections.

We can match outside files to the voter file to identify supporters in the new districts & can create maps. We can help you target your voters and offer free counts.

Telephones

Our data is matched for telephones.

We provide:

- random samples for polling.
- phone lists for calling.
- automated phone call services.

Cell phones

The voter file is also matched for cell phone numbers.

Cell phones:

- cannot be used in automated phoning campaigns.
- can be used for live calls.
- can be used for texting.

We provide texting services.

E-mail

We match voters for verified emails.

We design an email campaign for you, including the blasts.

Our emails are not usable by services such as Constant Contact which require opt-in emails. We can blast emails for you allowing your campaign access to those that click through to your website or email you. These become opt-in email addresses.

Campaign Mail

We can write, design, print and mail for you or we can print and/or mail an already designed or printed mailing.

About Lincoln Voters exclusively from Prime New York

We are proud to offer - **Lincoln Voters**, an on-line, user-friendly, database program.

President Obama's victories showed the importance of successful door to door and telephone canvassing campaigning. Lincoln Voters allows campaigns to identify their core supporters and flag them, then build a network of friends and families. Constantly counting the voters gives a campaign the information they need to determine when they have the votes needed win or how much effort is needed.

Unlike VAN and other systems, Lincoln Voters is secure – data is not shared with other campaigns.

You can upload lists and match them for voter information. It is robust for petitioning and turns the gathering process into a fully verifiable field operation.

You can mail from it, create lists and maintain the data you collect along the way, fixing phone numbers and e-mail addresses.

For more information about Lincoln Voters and/or to arrange a

demonstration, contact: Stu Osnow

Dear Friends,

We are pleased to once again send you the most recent New York City election results along with information about Prime New York and our products and services.

Since 1988 we at Prime New York have been here to help candidates, consultants, unions and associations. We've listened to your needs and offer products and services that New York campaigns can use at reasonable prices.

That's the reason Prime New York is the consultant other political consultants turn to. For further information and/or free counts, either email us or give us a call.

ABOUT EMAILS

More and more campaigns are using email addresses for voter contact.

At Prime New York, we create email files by matching the voter universe to an email file that once matched is sent out to be verified. This usually produces emails for @20% of selected voters.

The universe selected can be either all voters in a district or voters selected using Party, voter history, age, geography, gender, ethnic information or any of the information on the voter file.

Our email files include all the voter data that is included on regular voter files, not only names & emails.

Our matched emails are not opt-in emails. Services like Constant Contact and Mail Chimp require you to use emails from 'customers' who have opted in or signed up to receive emails and will not use the emails we provide. Gmail, AOL, Yahoo and other consumer email addresses will not allow you to use your account to blast large amounts of emails.

If you have any questions about what broadcast services are best to use for political emails, contact:

Stu Osnow, 212-587-8080, primeny@gmail.com

Prime New York will soon open the Londonderry Data Center

| Social Media Engagement | Polling and Voter ID | Facebook and Twitter Accounts | Gaming |
| Mobile Campaigns with SMS | Tracking Support | Web Design | Apps |
| | Get Out The Vote | Petition Verification | |

Cleaning Data, Managing It and Making It Work for You

The Londonderry Data Center will bring campaign support services that many of our customers have been asking for.

LDC will have a live phone bank for polling, voter ID and Get Out The Vote calls with our own unique opt-in program to connect with cell phones.

We'll be creating mobile campaigns that engage voters on their smart phones as a parallel campaign to Direct Mail and TV ads.

Our staff will be trained to enter names, addresses and signing dates into our Lincoln Voter System to verify petition signatures.

EMAILS you collect and those matched to the voter file will be able to be blasted and monitored from The Londonderry Data Center.

LDC will service our Lincoln Voter System for petition drives, matching membership files, and create private voter manager software.
