

PRIME NEWS

PRIME NEW YORK: THE CONSULTANT OTHER POLITICAL CONSULTANTS TURN TO

Why use Prime New York?

“Can’t I get publicly kept data for free?”

If you’re running a campaign, IE, PAC etc...the raw voter data from one of America’s 3,000 counties or 50 states and DC is free or low cost. The only problem with this free or low cost data is it stinks.

Data provided by local and state governments is very quickly dated which is why Prime New York is constantly running our data against the National Change Address Database (NCOA) and the Social Security Death Index (SSDI). Beyond that Prime New York appends phone numbers from five national sources every few months, meaning campaigns don’t have the problem with bad phone numbers when you buy from us.

“Is it possible to strike a balance between low quality free data and prohibitively expensive quality data?”

The answer is a simple, Yes.

Data has become part of campaigning at all levels which has created a large marketplace of providers curating, processing and distributing political data. This competition has driven the cost of data down. Prime New York has been around since 1988 because of our reputation of quality and fair pricing. Our low retail pricing is a demonstration of our commitment to working with campaigns and organizations at all levels.

In addition to pricing our support and speed of service regardless of a campaign’s size separates Prime New York from our competitors and many of the state and local governments providing the raw voter file.

“What about data supplied by the State Party approved vendor?”

Here’s the advantage Prime New York can give your campaign, as opposed to VAN or other alternatives.

Quality: With over 25 years of experience in New York politics, we have the highest quality voter and commercial data available to help your campaign hit your target voters and donors. And because we come from New York, we know the difference between Richmond Hill and Port Richmond, New Castle and North Castle and Otsego and Oswego

Speed: You won’t get slowed down by your voter data provider. Call us and we’ll turn around even the most complicated custom jobs fast.

Price: Prime New York has served both Presidential campaigns and local municipal elections. The only way that’s possible is by providing our customers with pricing to fit any campaign budget.

Tailored: We’ll provide what you need. If you just want land line telephones in certain election districts, we’ll get that to you or if you want only cell phones for text messaging or a walking list for GOTV, we’ll handle that also. Unlike with the VAN, you don’t have to buy anything you don’t need or share anything with other campaigns.

Phones: Most voter files provided by counties don’t include phone numbers. Many of the phone numbers provided by other vendors are old and no longer valid. Running a telephone campaign requires continuously updated, accurate and comprehensive data. We pull and scrub phone data from every major national source 4 times a year. Prime New York will give you fewer numbers but very few bad phones.

USE FACEBOOK FOR YOUR CAMPAIGN WITHOUT BREAKING THE LAW OR INVOLVING THE RUSSIANS

If you purchase a voter file with name, address and phone numbers from us, you can upload some or all that data as a custom audience directly into Facebook's advertiser interface. The Prime New York to Facebook match rate using just name, physical address and phone is 60%-80%. If you have emails attached to your file the overall match rate climbs to 90%+.

Contact Stu Osnow at 212-254-5359
or primeny@gmail.com for information
about how this works.

PRIME NEW YORK PRICES

Data has become part of campaigning at all levels which has created a large marketplace of providers curating, processing and distributing political data. This competition has driven the cost of data down. Prime New York has been around since 1988 because of our reputation of quality and fair pricing. Our low prices are a demonstration of our commitment to working with campaigns and organizations at all levels.

Most voter files from Prime New York cost \$25 per thousand voters. We offer files in several different formats and will provide files to campaigns in as many of these formats as the campaign wants at no additional cost.

In addition to pricing our support and speed of service regardless of a campaign's size separates Prime New York from our competitors and many of the state and local governments providing the raw voter file.

Prime New York (New York's leading voter file vendor) is re-releasing CYBERMATCH, our online system designed to check signatures on your OR your opponent's petitions

CYBERMATCH 12.0 allows up to ten volunteers or paid workers at a time to review petition signers from individual computers at any time of the day from any location.

CYBERMATCH 12.0 allows for easy data entry and voter look-up. Identify date signed and witness.

CYBERMATCH 12.0 doesn't lock the campaign into a straight jacket. We let you to compare the petition signers to voters just in your district or in a larger area – whatever the campaign thinks is best.

CYBERMATCH 12.0 makes it easy to save the information about the signer and to see if they signed another petition.

Contact Stu Osnow 212-254-5359 or primeny@gmail.com for more information.

Affordable, user friendly and designed for New York campaigns to verify the validity of designating petitions for New York candidates.

Don't let this happen to you...

Step 1: Buy a voter file from the Board of Election.
Step 2: Throw it away because it's riddled with inaccuracies and doesn't include any outreach data

or

Step 1a: Buy a voter file from the NY State Party.
Step 2a: Throw that file away because it's riddled with inaccuracies, has limited low-quality outreach information, can be breached by others and comes with an agreement to turn over your private data.

Try the alternative...

Step 3: Buy your file from Prime New York
Step 4: Wish you had started on Step 3

Prime New York will sell you the voters you want to reach based on the campaign's own decisions – Primary voters, “Super Primes”, older voters, new registrants or whatever the campaign wants. We don't make you buy what you don't need.

Compare our enhancements to the voter file to what others have to offer The Prime New York Voter file includes:

- Complex house holding to confirm most likely household groupings
- Landline and cell phone matching from five national commercial sources
- Analysis of family characteristics
- Calculation of likely marital status
- Ethnic and religious identification for @90% of voters
- Commercial file attribute appending for nearly 200 separate attributes including income, education, occupation and much more
- Application of proprietary hot button issue models and private self-reported issue data
- Lifestyle and interest coding from commercial data sources
- Census data conversions and application of American Community Survey Data

Among the commercial and lifestyle attributes are following:

- Income
- Occupation
- Education
- Religion
- Charitable giving in fourteen different categories
- Social/Economic Ladder Ranking
- Home purchase price and date along with likely current value
- Land value and median housing value
- Home owner versus renter
- Estimated net worth
- Investor status
- Business owner
- Likely presence of children in household
- Likely primary language
- Lifestyle patterns and magazine category subscriptions
- Pet owners of various types
- Gun owners
- Veterans
- Environmentalists
- Hobbies and interests found in the household
- Self-reported views on hot button issues including abortion, same sex marriage, gun control, immigration, school choice and more

Contact Stu Osnow or Jerry Skurnik at 212/587-8080 or at primeny711@aol.com for free counts and to get more information about how Prime New York can help you communicate with your voters.
